AMENDMENTS TO THE SPECIFICATION

Please replace paragraph [0024] on page 6 with the following paragraph:

[0024] The system 10 can include a clamp 28 32 to clamp the membrane 14 down so that when the wet catalyst ink 18 is sprayed on the membrane 14 it does not wrinkle. The system 10 also includes a heat lamp 30, such as an infrared (IR) heat lamp, to dry the MEA 24 as the wet catalyst ink 18 is sprayed thereon.
